

Unique opportunity to learn Quran, life of Prophet and why?

17 Reasons why we should read, listen, understand, ponder and reflect on Quran (The greatest gift Allah gave to humanity).

According to Quran itself, Ahadith of Prophet Muhammad (SAW) and Islamic scholars there are 12 reasons why we should read, listen, understand, ponder and reflect on Quran. And this is the best thing a human being can do in his/her life

- 1) We can seek approval of Allah and please Him through this effort.
- 2) Increase our righteous deeds in this world and hereafter.
- 3) Revive our hearts, without Quran our hearts are barren and desolate.
- 4) We can get contentment and peace in our heart.
- 5) Quran is healing and mercy for believers (physical, emotional and spiritual ailments)
- 6) We can get guidance (the only source of guidance to humanity), it is revealed for guidance and increase our faith (Eman).
- 7) It is act of worship and hope for reward.
- 8) It will save from the fire of Hell.
- 9) We will get intercession from Quran on the Day of Judgment (It will be witness for or against us).
- 10) It improves our lives, it is "MUBARAK", it's blessings are abundant..
- 11) We can get worldly and eternal benefits, closer to salvation and entering Jannat ul Firdous.
- 12) Quran is instructions from Allah (For Do's and Don'ts)
- 13) If we want to listen to our Lord (Allah) directly, read Quran.
- 14) Prophet (SAW) said, the best amongst you is the one who learns and teaches Quran.

- 15) Recitation of one letter of Quran is one hasanah, where one hasanah can be multiplied by at least 10 to 700 times by Allah (SWT) by His infinite mercy.
- 16) Quran is the only living miracle until the end of time.
- 17) Quran helps improve our Arabic (the language of Quran).

Also Remember Quran has four rights upon us:

1. Read it
2. Learn it (understand, ponder, reflect on it)
3. Implement in our lives.
4. Spread its message to others.

Unique Opportunity to learn meaning and short Tafseer (explanation) of each verse of Quran in easy English.

Taimiyyah Zubair daughter of famous Alima Farhat Hashmi of Alhuda Institute is giving meaning and short Tafseer of Quran (Juz by Juz) this Ramadan 2020 on her face book, titled "Ramadan with Quran by Taimiyyah Zubair".

Her brief translation and Tafseer has the following unique features.

1. English is very simple , impressive and eloquent.
2. Her style of conveying Quran's message is very convincing and her words penetrate directly into heart and soul.
3. She quotes Ahadith of Prophet (SAW) relevant to that particular Ayah (verse) if necessary.
4. She also quotes Islamic scholars interpretation relevant to that particular Ayah if necessary.
5. She includes lot of Dua's to be asked from Allah along the course.
6. Her pace is very moderate (not too fast or too slow).
7. Best result can be obtained from this course is if you open a Quran which you normally read and follow verse by verse in Arabic while she is translating and giving explanation.

I strongly recommend listen to her course, of course free of charge. Here is the link

Unique Opportunity to know the life of our beloved Prophet Muhammad (SAW), and Revelation of Quran

Dr. Meraj Mohiuddin, a Harvard trained physician and author of the famous award winning book on Prophetic biography (called Revelation, the story of Muhammad (SAW)) started recently his lecture series called the “The Revelation experience “ on YouTube . These lectures are based on his own experience and about his book”. I have listened to some of his lectures in last few days, they are unique, very absorbing and full of knowledge about Prophets life and also mentions on what point in his life what part of Quranic Revelation came. This also gives background of Quranic Revelation for people who have not read any Tafseer of Quran. I highly recommend everyone to listen and take advantage of this unique opportunity to learn about Quran and life of about beloved Prophet. Please also share this info with other friends and family members’ especially young people. Below is the link
Jazakallah

Below is, his own message about these lectures.

As salamu alaykum beloved fam and friends,
I'm launching a project today that is very dear to my heart. "The Revelation Experience" is a fully guided journey through the story of Revelation, taking listeners step-by-step through the life of the Prophet (saw) AND the surahs of the Qur'an as they were revealed in approximate chronological order. This approach is meant to pattern the experience of the very first companions, who were forever transformed by the Prophet's life and the verses that came down in that context.

This is how I would teach Islam to my kids. Traditional scholarship presented in a simple stepwise approach that is transformative, not academic. The emphasis is on discovering one's

true purpose in life and setting out to achieve it.

I am most excited to introduce you to an incredible qari, Hassan Hlayhel, who will be recording the entire Quran alongside me, iA. And I'll be incorporating his recitation heavily in my series. (Trust me, it's the best part!)

Please enjoy this series and share this with your communities. No registrations, sign-ups, or fees. Just subscribe for new content every day. My only request is you listen with your heart. Let's make this the most memorable Ramadan to date, iA.
